T. Hannigan

3 July 1999

To Governor Gray Davis:

All Californians are concerned about water use. As a resident on the Russian River, I live daily with poor choices around water.

I am writing to urge you to support the CALFED Bay/Delta program, which will protect California's water resources for the next 50 years.

Please ensure that the CALFED program:

- Invests in water efficiency for at least seven years before even considering new dams or reservoirs;

- Restores our rivers, bays and fisheries by providing adequate fresh water and for caring for the land around our rivers;

- Enforcing pollution limits;

- Stops making taxpayers pay for studies of new dams and reservoirs that impact on salmon and flood valuable habitats.

Sincerely,

Margaret Bishop

Margaret Bishop
